Advanced Scrub Practitioner Courses (also known as the Surgical First Assistant Course)

2020

Aimed at Theatre Nurses & Operating Department Practitioners
Advanced Scrub Practitioner Courses

Aimed at Theatre Nurses & Operating Department Practitioners

This course is aimed at qualified theatre staff holding a registered qualification. Its purpose is to support these staff in gaining the appropriate skills to enable them to function effectively in the perioperative environment as an Advanced Scrub Practitioner. The Advanced Scrub Practitioner also known as the Surgical First Assistant Course Part I will be provided completely online, with live group video teaching sessions led by our faculty. Part 2 of the course will be provided online as for Part I, but with the Key Instruction in Surgical Skills being delivered by a one day face-to-face programme.

Students will undertake this course whilst employed within an operating department. Clinical practice will be facilitated by an appointed and appropriately trained mentor and clinical supervisor within the student’s workplace, and will be undertaken as part of their employed work activities. Students will be expected to be assessed using the competency document provided. Students will receive a suggested plan of topics and activities to help them organise their study time. The plan will be devised to provide direction and support related to the identified topics within the practice competencies, ensuring they receive theoretical support linked to the practice experience.

Learning will be directed through teaching materials related to the indicative content provided via a dedicated website. Self tests will be included to enable students to measure their progress.

All courses will include online sessions with Faculty members and increased lectures which students can access via home or work, with the opportunity to ask questions and interact with not only the lecturer but the other students on their course. Each session will be recorded and emailed to all students for reviewing again or for students who missed the session.

It is advised that a learning contract should be negotiated with their mentor within the first month of commencing the course.

The Course:
This course will offer students a number of routes for these theoretical courses all of which have been developed to support the Advanced Scrub Practitioner. These courses offer the qualified scrub practitioner the opportunity to:
- Develop and expand their professional boundaries gaining the underpinning knowledge to support the clinical practice gained at local level.
- This course aims to enable the scrub practitioner to competently assist the surgeon in relation to recognised duties of the role of the Advanced Scrub Practitioner.
- Recognising the legal position, accountability and responsibility in accordance with their specific code of conduct.

Prerequisites to attend course:
This course is aimed at qualified theatre staff holding a registered qualification. Its purpose is to support these staff in gaining the appropriate skills to enable them to function effectively in the perioperative environment as an Advanced Scrub Practitioner. These courses offer the qualified scrub practitioner the opportunity to:
- Develop and expand their professional boundaries gaining the underpinning knowledge to support the clinical practice gained at local level.
- This course aims to enable the scrub practitioner to competently assist the surgeon in relation to recognised duties of the role of the Advanced Scrub Practitioner.
- Recognising the legal position, accountability and responsibility in accordance with their specific code of conduct.

Students would be able to apply for each individual course (course A or B) or all together (C)

| Students would be able to apply for each individual course (course A or B) or all together (C) | Course A: 30 Credits Level 6 Advanced Scrub Practitioner Part I course | B: 30 Credits Level 6 Advanced Scrub Practitioner Part II Course including the Key Instruction in Surgical Skills Course | C: 60 Credits Level 6 (30 part I, 30 part II) Advanced Scrub Practitioner course with extended skills including the Key Instruction in Surgical Skills Course |
|---|---|---|
| Key Instruction | Online programme and live lectures with one-to-one Zoom sessions with the teaching faculty. | One day face-to-face skills course supported with an on-line programme, live Zoom lectures and one-to-one Zoom sessions with the teaching faculty. | Online programme supported by live lectures and one-to-one Zoom sessions with the teaching faculty. |

Optional competencies

Clinical Hours

It is anticipated that the trainee Advanced Scrub Practitioner will need approximately 100 hours clinical practice in the ASP role (Part I) and also 100 hours in the ASP with extended skills (Part II). It is estimated that these clinical hours could be translated into 1 day (2 sessions) per week over a period of approximately 22 weeks. The total number of clinical hours an individual practitioner requires will be influenced by a number of issues.

Advanced Scrub Practitioner (ASP) Portfolio of evidence

As part of the training process trainees will compile a portfolio of evidence which will be used to verify overall clinical competency. Practitioners wishing submission of their portfolio of evidence for academic accreditation will be required to complete their University Accreditation document at the commencement of their programme when the trainee will be given a training / university identification number. On completion of the programme, the portfolio of evidence will be submitted to PEP where the portfolio will be assessed by two educationalists anonymously using the training / university identification number.

Course Dates

Course A: Advanced Scrub Practitioner Online Course

Saturday 19th September 2020
(Students will have the option of three dates for the first mandatory introductory lecture which the student will need to book once their place has been confirmed – 19th September, 23rd September & 3rd October 2020)

Course B: Advanced Scrub Practitioner Part II Course inc. KISS course

ASP Course Part B - Saturday 21st November 2020 commencing with a face-to-face study day/practical
(Students will have the option of two dates for the course introductory lecture which the student will need to book once their place has been confirmed – 22nd November or 23rd November.

Course C: Advanced Scrub Practitioner course with extended skills incl. KISS course

ASP Course C (Part A & B combined)
Commencing Saturday 19th September 2020 & Friday 26th March 2021
(Students will have the option of two dates for the course introductory lecture which the student will need to book once their place has been confirmed – Part A: 19th September, 23rd September & 3rd October 2020. Part B: TBC.

Course fees include:

- Lecture Course & Individual ASP training number
- Delegate Pack to support course including Course Handbook & Mentor Handbook
- Online tutorials during programme.
- Accreditation if successful, Award of each 30 Level 6 credits course A & B and 60 credits course C, credit rated by the University of Greenwich

Academic Accreditation

The programme is offered at Academic Level 6 to support the development of the portfolio of evidence reflecting the level of education and training required of the Advanced Scrub Practitioner. Successful completion and assessment of the portfolio of evidence will provide the trainee with 30 Level 6 Academic Credit rated by the University of Greenwich.

Tutorials

The programme offers the trainee access to sufficient tutorial time during the course with a local PEP educationalist aimed to provide guidance on the development of the Portfolio of Evidence. This can be organised in groups or individual sessions.

Mentors and Supervisors

Each trainee will be required to have both a professional mentor and clinical supervisor (consultant surgeon).

Venue:

These initial courses will take place as follows:
- Part I - This course will take place online
- Part II - Online with one day face-to-face concentrating on Key Instructions in Surgical Skills to be held at the Britannia Country House Hotel, Didsbury, Manchester
